UnextendedEC-controller A1 | Remote RF carrier + nicefnano v2 | ENGINEERING PROTOTYPE

Native nicefnano USB-C is the external port. J2 carries no USB. VBUS or high-impedance SENSE.

U2/U3: only one INH low at a time. U4 gain 101. DRAIN goes through R32 to SENSE. Q1 gates U4 only.

SW1/SW2 are 2.54mm solder-hole harnesses. No external 5V connection to U1 BATTERY+.

EC electrodes: logical row = physical row; column = floor(x_u + width_u/2). Including empty column blns.
